Non RoHS Compliance of WIBU-SYSTEMS Products

EC directive 2002/95/EC (the RoHS Directive) restricts the use of hazardous substances listed below in electrical and electronic equipment. RoHS compliance means that:

- Our electronic component suppliers have confirmed the compliance according to 2002/95/EC
- Our plastic and pcb suppliers have confirmed the compliance according to 2002/95/EC
- We perform material content testing where appropriate

Confirmation of compliance status by our suppliers is either because the products do not contain any of the restricted substances referred to in Article 4 (1) of the RoHS Directive at concentrations in excess of those permitted or it is allowed as one of the particular applications listed in the Annex to the RoHS Directive. For these purposes, the maximum concentration values of the restricted substances by weight in homogenous materials are

Lead	0,1%
Mercury	0,1%
Hexavalent Chromium	0,1%
Polybrominated Biphenyls	0,1%
Polybrominated Diphenyl Ethers	0,1%
Cadmium	0,01%

The following products are NOT conform with this directive. There are conform replacement products available in time:

WIBU-BOX/SP and /SX, p/n 3003-xx, 3004-xx	replaced by	WIBU-BOX/ST, p/n 3007-xx
WIBU-BOX/M, p/n 3020-xx	replaced by	CM-Card, p/n 1020-xx

If you have any further questions, please feel free to contact us.

Karlsruhe, April 2006, -

Oliver Winzenried

CEO, WIBU-SYSTEMS AG
